Idea to Investment

GRDC Supported Grower Study Tours

GRDC now welcomes applications on a continuous basis from growers and advisors to undertake study tours or related travel with a clear learning objective to gain new knowledge and skills

- Travel should be aligned to GRDC's Key Investment Targets (KITS) or the Capacity and Ability Framework
- Applicants will need to demonstrate how the tour/visit will support GRDC's purpose of ensuring profitability to Australian grain growers
- Study tours will favour groups pursuing a clear learning objective that will lead to practice change on farm
- Demonstrate how the learning outcomes of study tours are communicated effectively to the industry

Applications:

Can be made at any time of the year through the Grains Investment Portal on the GRDC website.

Thank you
(and feel free to contact us with your ideas!)
